Subject: RE: Draft FY17 GNETS Allocations

Good Morning,

Your rolling average went down which affects all of the operating costs that OPB gives. Additionally, you lost about \$120,000 in T&E which means experienced teachers left. Finally, some other GNETS facilities went up. Even if nothing about your formula changes, if other facilities see an increase, it automatically takes funds from someone else because it is a finite amount of money.

I'm sorry you experienced a shortfall.

Good morning Amber,

Sorry to bother you this morning, but I have been out of the office but now my secretary and I are trying to determine how/why our budget is hit so hard. I know our numbers are down and has been for the last few years. Will you help us to understand this. With these numbers we are looking at an estimate of about 184,000.00 shortage. We are so small already and I don't know we will do. Thanks for your thoughts and help.

Thanks

Mary Ann Seay

Good Morning Directors,

Many of you are asking questions about the funding formula, so I am attaching the guidance sheet that will provide more detail. Also, I am attaching the Draft Allocations for FY17 again. The initial file had correct state and federal FY17 draft allocations, but were not totaled correctly. Please keep in mind that these are draft allocations.

Thank you,

Amber

Good Morning Directors,

Please see the attached *DRAFT* GNETS allocations for FY17, with the rolling average included. I do want to stress that these are draft allocations only, and are being sent to assist you in planning for the upcoming year.

Please let me know if you have any questions.
